

30 NOV 1978

MEMORANDUM FOR: Chief, Physical Security Division,
Office of Security

VIA : Chief, Real Estate and Construction
Division, OL

FROM : [REDACTED]
Chief, Headquarters Engineering Branch,
RECD, OL

SUBJECT : SAFE Computer Center Sprinkler System

REFERENCE : Memo from C/PSD/OS to C/HEB/RECD/OL dated
3 October 1977 subject: Fire Protection
Requirements for Project SAFE

1. The referent memo outlines a requirement for a wet pipe sprinkler system for the SAFE computer facility. In our conversations with SAFE project personnel, they have expressed a desire to have a dry pipe pre-action system rather than a wet pipe system as proposed earlier.

2. This system would be designed by the GSA A-E in accordance with the latest applicable codes. It is requested that your office concur in this course of action. We wish to have your comments by 15 December so that the A-E may proceed with his design. Should you desire to discuss the matter directly with SAFE project personnel, please contact [REDACTED] of the ODP/SPS on Ext. 2088.
